Kubist Series Overview

Arnold Kolax Kubist Casegoods

Arnold Kolax Kubist casegoods are available with the edge detail illustrated here.

The Kubist line features mitre construction throughout. This impressive architectural design lends itself to both formal and informal office environments. All pieces may be customized to fit your needs.

Tops are 2" thick made of three-ply balanced construction. The top has a veneer self edge.

Side edges of all profiles are flat. Pedestals are placed flush with ends of tops.

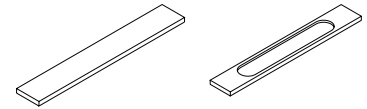

Chassis construction is 2" construction throughout.

Drawers are .5" premium solid maple or plywood, with .188" plywood bottoms reinforced with anti-rattle glue blocks. Drawers are a four-sided construction with chuck and bore joinery, and finished with a durable maintenance free lacquer.

Drawer fronts are .75" thick, three-ply construction. Veneers are applied vertically.

Locks, located in the kneewell, are standard on all desk pedestals, credenza pedestals, and lateral files. Locks are optional on credenza doors, center pencil drawers on desks, and bookcase files and doors.

Pulls are available in aluminum.

Touch-latch doors are available on request.

Suspensions on both box and file drawers are three part progressive action full extension precision ball bearing slides. Center drawer suspensions are three-quarter extension precision ball bearing slides.

Bookcase shelves are 1" thick particle board with veneered surfaces. Shelves are fully adjustable. Shelf holes are drilled on a 32mm system, approximately 1.25" apart.

Veneers on all exterior surfaces are “A” grade select in plain sliced White Oak, American Black Walnut, Cherry, White Maple, and slip-matched Sapele (Ribbon-type Mahogany). Optional Anigre* veneers are quarter cut.

Finishes are in a variety of 21 stained finishes listed below. A semi-open pore, 40° sheen, water and alcohol resistant top coat is standard.
