## Product Information:

1. **Wood:** All solid wood edges used on the exterior banding are "A" grade select in *Walnut, White Oak, Honduras Mahogany, American Cherry, and White Maple*. Every effort is made to match solid wood with the corresponding plastic laminate in color and grain, however, since wood is a natural material, some variation in color grain and character may occur. The variation is not considered a defect.
  
2. **Finish:** A "seven step", open pore finish is standard. It is a rich, lustrous water and alcohol resistant 35° stain sheen multi-coat lacquer applied over a "hand rubbed" wiping stain. Color consistency is maintained by constant comparisons to "control panels" at every step in the finishing process. Custom color matching available: consult factory for pricing.
  
3. **Special Wood Finishes:** Arnold Kolax Furniture, Inc. provides its customers finish matching capability. Customer must submit a 3" x 3" sample of the finish to be matched.  
 The amount of upcharge is based on the following criteria:
  - \$75 minimum on any special wood finish.
  - Color matching only of samples with open or closed pore finish: +15%
  - Color and texture match of closed pore finishes: + 25%
  - Closed pore finish (top surface only) on any Arnold standard wood stain: + 10%
  - Buffed/polished appearance: call factory.
  - Finish matching requiring bleaching will result in an additional charge. The factory reserves the right to make the final determination.

Please note, that unless otherwise agreed, closed pore finishes will be done on horizontal work surfaces only.
  
4. **Laminate:** Plastic laminate tops and surfaces are of the horizontal grade with a textured (T) finish. You may select from a list of matching plastic laminates to the Arnold finish printed below, or you may specify any other Nevamar, Wilsonart, or Formica brand color with a textured (matte) finish. Following is a list of standard wood finishes and some available matching plastic laminates:

# Overview

The **Universal Series** is available with the following edge details

**Style A** – our standard veneered self edges

**Style B** – 5/16" solid wood banding with radius edge

**Style C** – 5/16" solid wood banding with concave edges

**Style D** – 5/16" wood banding with flat bullnose edges

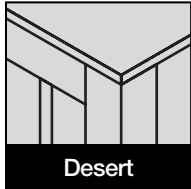

The **Pacific & Mountain Series** features 3/4" veneer panels with 1-1/4" solid wood border. The panels are accented with 1/2" thick applied solid woods.

The **Canyon Series** combines wood and black metal for a modern design. The bookcase end panels are manufactured with 1 1/2" square steel supports on the outer edges. 1" thick three ply wood panels are mounted between the supports with modular connectors. The Canyon Study Carrels are manufactured with steel supports which are 1 1/2" square. 1" thick plywood panels are mounted between the supports with modular connectors. The tops are 1 1/4" thick. All Reading Tables have 2" square steel supports with 3/4" round spacer and a plate mounted to the top.

1 1/4" three ply wood panels are mounted between the leg supports with modular connectors. A stabilizer bar is welded to the inside plate and mounted with hidden bolts to the panel legs. The tops are 1 1/4" thick. The edges are comprised of 1 1/4" x 2" solid band, tongue and grooved to the top. Marquetry detailing is optional. The Canyon Series must be ordered in a total quantity of ten items.

**Study Carrels** are shipped K.D. unless set-up is specifically requested. K.D. fittings are attached to modular connectors that are fully concealed in the panels. Locked in position, they ensure a secure joint between side and back panels. Carrels are constructed of 1.25" material with solid edge banding on all exposed edges. Back is 1.25" thick; upper shelf is .75" thick with 2" fascia. One grommet is standard on worksurface. Tops can be wood, or laminate on request. VDT Integrated Monitor System packages are available on all standard sizes.

**Raised Panel Carrels** have 1" x 3" vertical stiles and 1" x 4" horizontal rails. The 3/4" solid raised panels are grooved into the rails and stiles. Back panels and partitions have the same frame construction, however, 1/4" flat panels are grooved into the stiles and rails.

## Arnold Kolax Library Furniture

Arnold Kolax library furniture is available in several designs. Edge details for all Arnold Kolax Furniture lines are illustrated here.

**Reading and Index Tables** are available in juvenile height (27") and adult height (29"). 1.25" thick tops are available in wood or laminate at the same price. Particle board core is standard; lumbercore is available as an option at an upcharge. Legs are constructed of 2.25" solid wood. Index Tables have the same construction as the Reading Tables, and are available in the same heights. Index Tables provide more privacy to the user with .75" thick partitions; the number of partitions varies with the size of the table top.

**Circulation Desk Components** are all constructed with .75" thick particle board. The tops are 1.25" thick with a 2" overhang on the approach side, and a 1.75" overhang on the working side. The 3" high toekick is recessed 2". Components can be set up in any configuration that meets your requirements. Each Spectrum Circulation Component has a spectrum mullion on the right approach side and a square spacer on the working side. Left and right end panels (Model No. GLEAX) must be ordered for each end of a configuration to complete the desk.

**Mobile Units** are constructed of 1" particle board. All units, except the computer utility tables, are equipped with four dual casters. 3" chrome wire pulls are standard on all units with doors. Locks are optional. All units have outside finished backs.

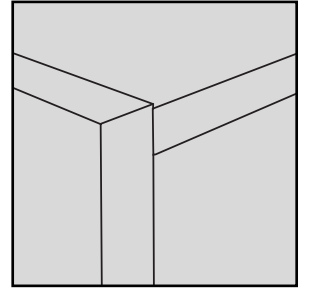

**Dictionary and Atlas Stands** are constructed of 1.25" material with solid edgebanding on all exposed edges. They are permanently assembled and glued with doweled construction. Newspaper Racks have ten wooden display rods.

**Low voltage halogen lights** are available as an accessory. These lights remain cool during operation and minimize UV rays. They have a longer life span and a higher efficiency than standard incandescent lights. The halogen lights are 10 watts each, and are supplied with high quality reflectors and glass lenses. Black rings are standard, but the decorative rings are also available in a variety of colors on special request.

### Options:

Listed in the right hand column of each page are a variety of options available for each product. These options are applicable only to the product with which they are associated. A more detailed description of all of the options listed are shown on pages 72 and 73.
